

**Privatization programme for 2006  
and main trend of the federal property privatization for 2006-2008**

**Part I  
Main trend of the federal property privatization for 2006-2008**

*1. Purposes and objectives  
of the federal property privatization programme for 2006-2008*

Privatization programme for 2006 and main trend of the federal property privatization for 2006-2008 (hereafter privatization programme) was developed in accordance with Federal law “Privatization of state-owned and municipal property”.

Privatization programme is aimed at implementation of the tasks which were conceived in the President's Message to Federal Assembly of the Russian Federation in 2005.

Main tasks of the federal property privatization programme for 2006-2008 are the following:

- privatization of the federal property which is free from the state duty support;
- stage-by-stage reduction of the federal state-owned unitary enterprises;
- enhancement of privatization process;
- income generation of the federal budget.

*2. Anticipation of the federal property privatization influence  
on structural changes in economy*

As of June 1, 2005 Russian Federation is owner of 8293 federal state-owned unitary enterprises and stockholder of 3783 joint-stock companies.

According to branch of economy, total amount of federal state-owned unitary enterprises and joint-stock companies which shares are belonging to federal property is the following:

<i>Branch of economy</i>	<i>Amount of federal state-owned unitary enterprises</i>	<i>Amount of joint-stock companies with the participation of Russian Federation</i>
Non-productive sphere	3617	685
Industry – total	1870	2078
including:		
Machine-building industry	734	187
Light industry	194	9
Food industry	55	54
Building materials industry	68	19
Metallurgy industry	34	28
Chemical industry	39	46
Agricultural industry	1111	229
Timber industry	67	45
Transport and communications	725	459
Building industry	903	287

Depending on federal stake percentage in authorized capital of joint-stock company blocks of shares are distributed as follows:

<i>Amount of shares belonging to federal property (% of authorized capital)</i>	<i>Amount of joint-stock companies</i>
100%	413
From 50 to 100%	474
From 25 to 50%	1093
25% and less	1544
Concerning participation of the Russian Federation in management of joint-stock company special right (“gold share”) is used and there are no shares belonging to federal property	259

In 2006 - 2008 blocks of shares of the joint-stock companies created by corporatisation of the federal state-owned unitary enterprises, excluding joint-stock companies included in the list of the strategic enterprises, strategic joint-stock companies (hereafter - list of strategic joint-stock companies) and companies engaging in formation of integrated institutions will be put up for sale.

In 2006 the following blocks of shares will be put up for sale:

- blocks of shares which percentage is no more than 50% of the authorized capital of corresponding joint-stock companies, excluding those included in the list of strategic joint-stock companies or those engaging in formation of integrated institutions, and also blocks of shares which sale will be performed on the basis of needs of the federal budget income generation in 2006 and for the period till 2008 according to the perspective financial plan;

- blocks of shares of joint-stock companies relating to the following branches of economy – gas industry, power building industry, building industry, cinematography and film service, civil aviation, health service industry, chemical, petrochemical and printing industry, geology, fishing industry, poultry industry, plant growing industry, cattle breeding industry, timber industry, medical industry, stakes of foreign economic organizations and machine-building industry (excluding joint-stock companies included in the list of the strategic enterprises);
- federal state-owned unitary enterprises relating to civil aviation, geology, oil-and-gas industry, fuel industry, sea and river transport, printing industry, health service industry, plant growing industry, poultry industry and cattle breeding industry.

During privatization of enterprises engaging in housing and municipal service which include facilities of electric network, heating network, water and gas network such facilities are planned to transfer into ownership of corresponding constituent entity of the Russian Federation or municipal formation.

In 2006 within the framework of federal purpose-oriented program “Reforming and development of military-industrial complex (2002-2006)” creation of integrated institutions in military-industrial complex will be continued.

In 2007-2008 all federal state-owned unitary enterprises which do not provide for the fulfillment of state duty of the Russian Federation and blocks of shares of the opened joint-stock companies created by corporatisation of such federal state-owned unitary enterprises will be offered for privatization.

Here is the list of federal state-owned unitary enterprises offered for privatization (according to the branch of economy):

<i>Branch of economy</i>	<i>Amount of federal state-owned unitary enterprises</i>
Foreign economic activity	11
Water transport	3
Air transport	8
Geology and industry of precious metals and precious stones	41
Road facilities	60
Railway transport	2
Publishing and printing industry	23
Light industry	1
Timber industry	34
Machine-building industry	11
Medical industry	3
Non-productive sphere	124
Oil-and-gas industry	2

<i>Branch of economy</i>	<i>Amount of federal state-owned unitary enterprises</i>
Military-industrial complex	140
Building materials industry	4
Fishing industry	11
Communication services	8
Building industry	58
Fuel and energy industry	26
Trade industry	6
Coal industry	3
Chemical and petrochemical industry	4
Power building industry	1
Total	885

Here is the list of opened joint-stock companies offered for privatization (according to the branch of economy):

<i>Branch of economy</i>	<i>Amount of joint-stock companies</i>
Motor transport	30
Agricultural industry	69
Foreign economic activity	4
Water transport	11
Air transport	8
Geology and industry of precious metals and precious stones	5
Railway transport	7
Publishing and printing industry	9
Finance and credit	7
Light industry	7
Timber industry	5
Machine-building industry	18
Medical industry	8
Metallurgical industry	3
Non-productive sphere	45
Oil-and-gas industry	3
Military-industrial complex	39
Food industry	1
Building materials industry	6
Fishing industry	1
Communication services	10
Insurance industry	1
Building industry	43
Shipbuilding industry	2
Fuel and energy industry	19
Trade industry	1
Chemical and petrochemical industry	20
Power building industry	1
Total	383

### 3. Anticipation of federal budget revenue after sales of federal property

According to anticipation of the Russian Federation socio-economic development for medium-term perspective estimated government revenues after sales of federal property in 2006 totals not less than 31 billion roubles.

## Part II Federal property offered for privatization in 2006

### LIST OF OPENED JSC'S BELONGING TO FEDERAL PROPERTY WHICH SHARES ARE PLANNED TO BE PRIVATIZED IN 2006

№	Name of JSC	Amount of shares belonging to federal property (% of authorized capital)	Amount of shares which are planned to be privatized
